ACTRESS WHO VOWED NEVER TO WED
AGAIN WILL MARRY ADMIRAL'S SON

Julia Sanderson.

When Julia Sanderson, actress, divorced Tod Sloane, jockey, some years ago, she announced solemnly that she would never, never marry again. Now comes the announcement of her engagement to Bradford Barnett, son of the late Admiral W. G. Barnett, U. S. N.

Fancy Embroidered Chiffon Used Extensively With Taffeta and Crepe Frocks—Blue and Black Combined for Late Spring Wear—Round and Round Trimming—To Dry Clean Corduroy—Recipes for Use of Strawberries—System in Canning Fruit.

SIX FASHION HINTS.

Embroidered Chiffon.
Chiffon embroidered in self color or contrasting color in large flowers is much used in combination with plain taffeta or crepe for afternoon frocks.

Blue and Black.
Blue and black are always smart in combination. This spring there are many blue and black silks, in stripes and plaids. Blue and black serge and taffeta are also combined with good results.

Eyelet Embroidery.
Eyelet embroidery is widely employed on some of the prettiest summer models in linen.

Tassels.
Long silk tassels are used on some of the most effective models in coats of silk and jersey.

Round and Round.
Most of the trimming of the spring is vertically applied. This, of course, is to emphasize the fullness and flare of the skirts.

Carnations.
A new flower, at least new in its perfection, for hats is the carnation.

FANCY GOWNS

THE surprising freshness and beauty of these dainty creations when cleansed by us make them truly more attractive than when new. We bring back the original freshness of the materials which is often lost even before these gowns are worn.

MAY FESTIVAL TO BE HELD NEXT THURSDAY AT SCHOOL

The seventh annual May festival will be held at the Utah School for the Deaf and Blind next Thursday afternoon, May 25, at 4:30 o'clock. Superintendent Driggs has completed all arrangements for the event, which was postponed from last week because of the inclement weather. The exercises will be held on the lawn at the institution's grounds and the program as arranged and published will be carried out. The 160 dancers will give their pantomimic terpsichorean delineation of the fairy story which forms the main theme of the exercises.

More than 3500 seats have been arranged for the accommodation of visitors and a special car service will provide transportation for the guests over the Twenty-first street line.

Governor Spry and his staff and between three and four hundred people from Salt Lake City are expected to be present, excursion arrangements having been made for the 2 and 3 o'clock trains on the Bamberger line. Superintendent Driggs will endeavor to arrange for excursion rates today from points along the Ogden, Logan & Idaho.

Messrs. Scowcroft, Zeimer and Skinner of the Alhambra theatre have made arrangements for motion pictures to be taken of the festival and these will be shown at the Alhambra later, afterwards being shown in one of the picture weekly services throughout the United States.

as it contains more acid than ripe fruit. Any fruit not firm is unfit for canning, but overripe and partially decayed fruit may be used for jelly making, butters and jams. If possible the fruit should be canned the same day it is picked. All fruit should be washed carefully; this is best done by lifting it in and out of water several times. Under no circumstances, however, should it be allowed to stand in water; this causes softening with consequent loss of shape and flavor

SMALL BOY HAS HIS HANDS MANGLED BY AN EXPLOSION

Through an explosion of a dynamite cap, Armand Bigler, nine-year-old son of Mr. and Mrs. A. A. Bigler, 835 Twenty-first street, was seriously injured yesterday afternoon. The accident happened about 1 p. m., on the bluff overlooking the river, on the north side of the grounds of the State School for the Deaf and Blind.

In the explosion, both of the boy's hands were badly mangled and one of them being jammed against a brick wall in the eye completely closing it. The dynamite cap had been taken from a box containing nineteen others, which was found by young Bigler, Edward Ryan and Harry Van Komen, boys of his own age, near the old sanitarium site at the mouth of Ogden canyon. From the sanitarium site, the boys wandered down to the bluff near the state school. There the Bigler boy took one of the caps and, holding it on a rock with his left hand, struck it with another rock. The explosion followed and the cries of pain from the injured child and those of fear from his companions, brought several older persons to the scene.

The police were notified and Desk Sergeant Barlow Wilson and Detective Steve Grand Spyners answered the call, going to the scene in the auto-patrol. They took the Bigler boy to the Dee hospital and then returned to the scene of the accident to investigate. They found the other nineteen dynamite caps and learned from the Ryan and Van Komen boys where they had been found. Going to the old sanitarium, the officers discovered a box of dynamite and a quantity of fuse in the brush.

It was stated last night by the parents of the boys, that the parties responsible for leaving the explosives in such an open place would be prosecuted, under provision of the state law.

Strawberry Sauce.
Cream two tablespoons of butter, add gradually one cup of powdered sugar and a little lemon juice. Beat in crushed berries and serve cold, or melt the butter over hot water and serve hot.

Steamed Strawberry Pudding.
Make a soft dough with one cup of milk and one pint of flour in which has been sifted two level teaspoons of baking powder and a little salt. Put a spoon of the dough into well greased cups, then a spoon of strawberries, then another of dough. Steam for twenty minutes.

Strawberry Whip.
Rub a quart of strawberries through a fine strainer and add powdered sugar to taste. Beat the whites of three eggs to a very stiff froth and mix immediately with the mashed berries and put in a quick oven. Cook for fifteen or twenty minutes according to the degree of heat in the oven and serve as soon as baked. A soufflé of this kind is always more delicious if baked in a low baking dish.

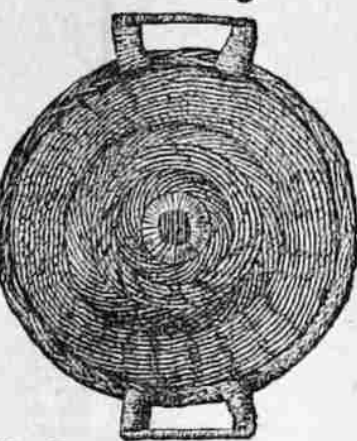

System Succeeds Luck in Fruit Canning.

The modern housewife has almost completely eliminated "luck" in fruit preserving operations. Where her grandmother worked blindly by rule of thumb methods, with the haunting fear ever present that with all her pains much of the fruit might spoil, the present day housewife goes about the work confident of success. The difference is due to four things: Knowledge of the work of the bacteria that cause fruit to ferment, a reasonable degree of cleanliness, wise discrimination in selecting the methods for the different fruits, and the use of a few cheap but indispensable instruments.

The syrup method of canning may be illustrated with strawberries. Select firm berries slightly underripe, wash and stem them, and place them in jars that have been sterilized by boiling in water for fifteen minutes. Shake the berries down in the jars, but do not press them. Place a new rubber on one jar, fill the jar to overflowing with a heavy syrup boiling hot, and seal it at once. The jar may be placed in a plate to catch the overflow syrup.

It need hardly be said that selecting and handling the delicate early fruits is a matter of great importance. Fruit slightly underripe is to be preferred,

Free Instructions in Crepe Paper Rope Weaving

Miss Burns, from the Dennison factory, is now at our store giving free instructions in this interesting and fascinating work. In a half hour Miss Burns can teach you to make dainty and novel Place and Tally Cards, Favors, Paper Flowers, Candle and Lamp Shades, Rope baskets, Trays, etc.

Come and learn how simple is the method, and how beautiful are the articles you can make in your spare time.

SPARGO'S BOOK STORE

and the Ladies' Aid society. Individuals added flowers. The pastor responded, expressing, in the name of the family, the deepfelt appreciation of the gifts and interpreted them as the expression of the spirit of harmony which pervades the congregation and good will towards pastor and family, both requisite factors in the co-operative upbuilding of St. Paul's church. He also dwelt on reminiscences which proved suggestive and humorous, in the course of which the bride presented herself in her original wedding dress. Refreshments, among which were also a large wedding cake, served as delicacies. Most pleasant hours were spent. Too soon came the hour of farewell, with the prospective view of the golden anniversary in 1941.

CONFERENCE OF SUNDAY SCHOOL

The annual conference of the Fifth ward Sunday school was held yesterday, with a large attendance at both the morning and evening sessions. The speakers at the morning session were Mrs. Lydia E. Tanner, who spoke on "What is Worth While"; Miss Lillian Plygare, B. H. Goddard and D. H. Ensign, Jr.

At the evening session, Heber Scowcroft delivered an address on "Preparedness" and a brief talk was made by Bishop J. W. Ure. Excellent music formed a part of both programs.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought

Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."

—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

NARROW ESCAPE FOR H. HENDERSHOT

But for the instant reversal of the power on a north-bound electric car, near the Ogden river bridge, on Lincoln avenue, Saturday evening, Herbert Hendershot, 60 years old, would have been crushed to death.

While walking along the interurban track at about 10 o'clock Saturday evening, Mr. Hendershot was stricken with paralysis and fell. The motorman on a fast approaching car saw the old gentleman fall, and, quickly applying the emergency brake, stopped the car before it reached the body. Sher-

DON'T LET NERVOUSNESS RUIN YOUR HAPPINESS

VICTIMS OF NERVOUS SICKNESS

CADOMENE TABLETS

The Great Nerve Medicine

Nervousness deadens the brain and weakens the body. Nature needs real and harmless aid to overcome it.

Nature does her best to fight the evil effects overwork, worry, dissipation and excesses on the nervous system. She fights to the last atom of her strength but usually she has to have assistance to overcome the slug-

gish brain, weakened body, the sick headache, sleeplessness, flabby and de-generated muscles, that tired all in feeling, inability to act naturally, a feeling of fear, with pains in back, head and groins, general weakness, inefficiency in functioning and complete failure in realization of hopes.

For this condition Cadomene Tablets offers the safest, most prompt and reliable aid.

Cadomene Tablets are vitally necessary for rebuilding the cells of body, brain and nerve tissues. Men and women, too, who are nervous, have starved nerves, and starved devitalized nerves need the elements of Cadomene Tablets to feed them. Cadomene Tablets are a combination that is easily picked up by the digestive system and most quickly appropriated. The nerve and tissue building properties go quickly into the circulation and reach the spot. Cadomene gets at the bottom of the weakness or trouble because it directly feeds the blood stream because it nourishes the nerve centers, because it does these things naturally and persistently and the sum total of such action must, cannot fail to produce a general uplift of body and mind, a thorough strengthening of the body's resistive force, a regaining of vitality and endurance—in a word: Renewed and complete efficiency of body and mind. Obtain in sealed tubes with full directions from all live druggists.

ELIOT ENDORSES L. D. BRANDEIS

President Emeritus of Harvard Writes Letter Commending Nominee to U. S. Supreme Court.

Washington, May 22.—Chairman Culberson of the senate judiciary committee today made public the letter he received last week from Charles W. Eliot, president emeritus of Harvard, endorsing the nomination of Louis D. Brandeis to the supreme court. A. Lawrence Lowell, president of Harvard, has joined with a group of Boston attorneys in opposing confirmation.

Mr. Eliot's letter, written at Cambridge, says: "I have known Mr. Louis D. Brandeis for forty years and believe that I understand his capacities and his character. He was a distinguished student in the Harvard law school, in 1875-76. He possessed by nature a keen justice, quick and generous sympathies, a remarkable capacity for labor, and a character in which gentleness, courage and joy in combat were intimately blended.

Honesty is unquestioned. He has sometimes advocated measures or policies which did not commend themselves to me; but I have never questioned his honesty and sincerity, or his desire for justice.

"Under present circumstances I believe that the rejection by the senate of his nomination to the supreme court would be a grave misfortune for the whole legal profession, the court, all American business and the country."

The judiciary committee will vote on Wednesday on the nomination.

WAITE TO MAKE INSANITY PLEA

Young Dentist Who Poisoned Father-in-Law to Face Medical Experts and Witnesses.

New York, May 22.—Four alienists headed the throng of witnesses gathered in the criminal branch of the supreme court today of the trial of Dr. Arthur Warren Waite, the young dentist, sportsman and man about town, is charged with murder, first degree, in poisoning his father-in-law, John E. Peck, a wealthy manufacturer of Grand Rapids, Mich. Since he has confessed the murder, Prosecution believes that the defense will rely upon a plea of insanity. To combat this testimony the state has engaged three medical experts and summoned 115 witnesses.

Probably the most interesting fig-

ures at the trial however, next to the prisoner himself will be his wife, Mrs. Clara Peck Waite, and Mrs. Margaret Horton, a New York young woman, with whom Waite occupied at times a "studio" at an up-town hotel.

also prominent as chemist.

General Goergei was 98 years old. He came of a Saxon noble family and put the outbreak of the revolutionary war of 1848 offered his sword to the Hungarian government. He won a number of successes against the Austrians and was made commander in chief. He was deposed temporarily against the advice of Kossuth but subsequently was reinstated.

VON JAGOW MAY RETIRE.
Geneva, Switzerland, May 21, via Paris, 4 p. m.—French newspapers say that travelers who have just arrived in Switzerland from Berlin, have the impression that the resignation of Clemens Delbueck, as vice-chancellor and minister of the interior will be followed by the retirement of Gottlieb von Jagow, the foreign minister. It is reported Prince von Buelow, former chancellor, will become foreign minister.

THE COST.
"Did you give yer whole anything on her birthday, Pat?"
"O' did."

"Thwat did it cost yez?"
"Tin dollars or tin days."—Boston Transcript.
